Multiples

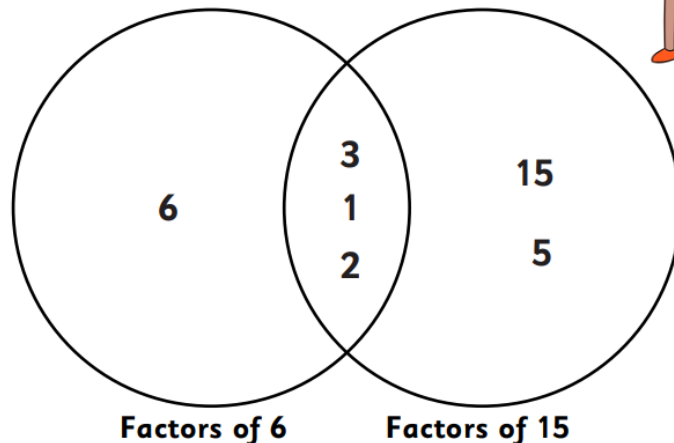

Place the numbers into the correct part of the table. Are there any numbers which can go in more than one column?

12, 6, 27, 4, 15, 24, 18, 25, 10, 9

Multiples of 3	Multiples of 4	Multiples of 5

Reasoning

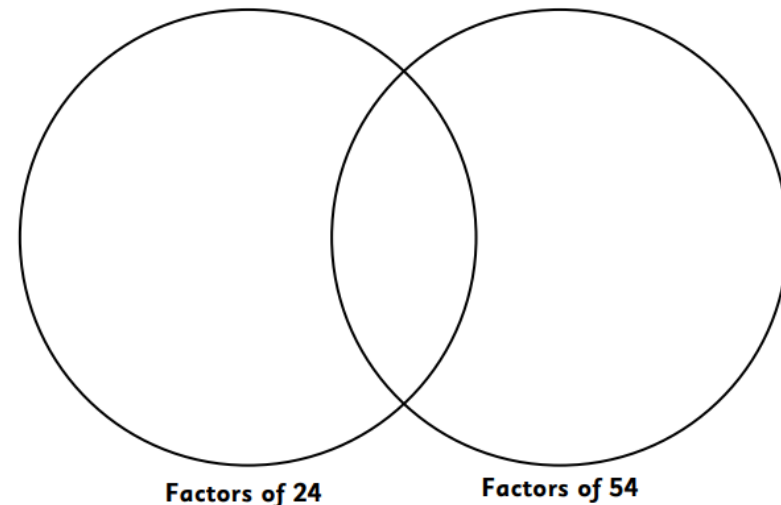

Maddie has sorted the factors of 6 and 15 into a Venn diagram. Spot the mistake she has made.

Factors

Complete the Venn diagram using factors of 24 and 54.

Remember: Use your factor bugs first.

Time

Do you agree with Helen or Roy? Explain your answer.

Helen

I finished my book first because I read it in 150 minutes.

Roy

No, I finished my book first because I finished it in only $2\frac{1}{2}$ hours.

Multiplication

$6 \times 2 = \underline{\quad}$

$10 \times 11 = \underline{\quad}$

$60 \div 12 = \underline{\quad}$

$4 \times 4 = \underline{\quad}$

$12 \times 8 = \underline{\quad}$

$77 \div 7 = \underline{\quad}$

$12 \times 6 = \underline{\quad}$

$1 \times 3 = \underline{\quad}$

$36 \div 9 = \underline{\quad}$

$2 \times 8 = \underline{\quad}$

$7 \times 3 = \underline{\quad}$

$10 \div 1 = \underline{\quad}$
